If you do not know your username/patron-ID you can use the option “Forgot username”.

If you get the message «Invalid username» the cause is either:

- you belong to an institution that is in the drop-down-list
- you have written wrong username/patron-ID
- your user account is so new that the system has not been updated. The patron register is updated every night. You may try again the following day to order a password.

If the problem continues you must contact the library at your institution.
